To: Whomever it may concern

### Letter of Recommendation

Certified General Contractors, Inc. participated in a competitive RFP Process for the Construction of our 45,000 SF Mixed-Use Facility located in Vero Beach, FL. Our Board of Directors and leadership were impressed with their team, and we are now currently under construction on the project. Corey & his team managed the preconstruction process from 40% design to 100% design, maintained the project under the original budget, and created significant savings through value engineering that will enable us to better serve the over 650 struggling families we help daily in Indian River County.

I highly recommend Certified General Contractors, Inc. for your next project. Their professionalism, expertise and compassion are a rare combination. We are proud to have them as our builder, but also as a community partner.

Sincerely,

**Annabel Robertson**

Executive Director
